### Practical advice that works

With a global network of over 6,000 senior business leaders from a wide range of various business areas, YBE is ideally placed to enable businesses to breakthrough in new markets.

Our associates are matched to businesses based on specific needs and requirements of our customers in order to offer the right set of skills and knowledge combined with a clear understanding of the market.

### How we work

Expanding into new geographies can be a complex and time consuming process. YBE jointly with CDCC have developed a program to help entrepreneurs and enterprises from the Czech Republic to enter the Dutch or other foreign markets. As a starting point, YBE would develop an initial Business Development Evaluation Report at no costs for you. One of the YBE associates will develop this report using his knowledge of the market and experience in the respective industry.

Based on this report, you can make an informed decision, if the market is attractive for you to enter. Should you wish to continue your cooperation with YBE, our associate will assist you further based on the agreement between your business and YBE.
