

PREVENT Standard in Prague

Duration about 2 hours.

This health care program includes the most important medical examinations for complete diagnosis of the state of health. The examinations and consultations follow each other. Within two hours you obtain the essential information about your health.

- ✓ A questionnaire regarding personal and family medical history
- ✓ Abdominal ultrasound including examination of pancreas, gall bladder, liver, kidneys, bladder, ovary and uterus for women and prostate for men
- ✓ X-ray of lungs and heart, we recommend a two-year break between the X-ray examinations of the lungs
- ✓ Blood and urine tests including blood count, level of glucose, cholesterol, hormones of the thyroid gland, liver test, ions, density, clotting and sedimentation, PSA (for men) and examination of urine and sedimentation
- ✓ Occult blood test as a prevention of colon cancer
- ✓ ECG monitoring heart activity
- ✓ Blood pressure
- ✓ Final consultation with a doctor regarding the medical results; if needed, recommendations for further consultations and treatment
- ✓ 2 x Nights stay in luxury hotel in the city centre of Prague
- ✓ Local guide and transport services
- ✓ Incl. all taxes & fees.
